TO: International Vice Presidents, Local Union Business Managers, International Organizers, Local Organizers, and Local Apprentice Coordinators

RE: LMCT Facilities Program

Over the years the LMCT Trustees have had many discussions on how to create more work opportunities for both our Local Union Membership and Signatory Employers and how we can grow market share.

One idea that has now been put in place, is an on-line program that will show each Local Union (and other authorized users) all of the facilities in their jurisdiction and the work opportunities in those facilities.

The LMCT has contracted with Industrial Info Resources to receive, on a weekly basis, the data on all Operational Facilities in the US and Canada. It contains over 64,000 operational facilities with all of the contact information about each facility-as well as other important information about jobs being bid, awarded etc.

We have approval through the contract to share this information only with each of our Local Unions and Signatory Contractors. That on-line tool has been created and resides in the International Union Hall. It is named: LMCT Facilities

International Vice Presidents and International Organizers will be able to see all of the Facilities in each of the Locals that they have jurisdiction over.

Access to the system is provided via a link in the International Union Hall main menu after you log in. Once the **LMCT Facilities** menu selection is clicked a separate login is displayed and required.

User Name/Password

User Name and Password entry is the same as logging into International Union Hall.

- **IVP**
 - Enter user name and password, same as logging into International Union Hall.
- **International Organizers**
 - Enter user name and password same as logging into International Union Hall.
- **Business Managers**
 - User name: awl[local number] user. Example: awl24
 - Password: Enter your password previously assigned.
- **Local Organizers**
 - User name: aw[local number]org user. Example: aw3org
 - Password: Enter your password previously assigned.
- **JATC Coordinators**
 - User name: aw[local number]JATC user. Example: aw55JATC
 - Password: Enter your password previously assigned.

If you have any signatory employers that would like access to this tool, they will have to do so via a separate URL. They will not go through International Union Hall. Attached is a form for you to have them

complete, send back to Tom Haun and he would set them up as a user and email them back the information on how to access this.

It is very simple to use and has a tremendous amount of flexibility. We have included the Instructions.

The main objective in developing this tool is to show each Local Union and your Signatory Employers the tremendous work opportunities in your jurisdiction.

Just imagine if we were able to put one Union Insulator in each of these facilities performing maintenance work, what that could lead to!

Putting together a strategic plan and visiting these sites with a Signatory Employer and explaining the "Power of Mechanical Insulation" to that facility is being proactive in our goal to growing a greater market share!

If you have any questions or issues with the sight, please let us know.

Sincerely,

LMCT Trustees
